

ILLINOIS CAPITOL IS STILL SEETHING

SMALL VIGOROUSLY ASSAILS FOES AND SAYS ARREST FALSE

State's Attorney Offers Change of Venue—
Interest Earnings During First Six Months
of Treasurer's Term Given—Startling De-
velopments are Promised by Governor

(By The Associated Press)
SPRINGFIELD, Ill., Aug. 10.—Offers by State's Attorney Mortimer of a change of venue for Governor Small, a vicious assault by the governor upon his political enemies in Sangamon county and announcement that State Treasurer Edward E. Miller had turned in \$385,071.21 interest money to the treasury for the first six months of his term were the principal developments of today in the seething capital of Illinois.

Governor Small announced another list of appointments during the day and indicated that he expected to leave Springfield tomorrow.

The governor's first day since his arrest by Sheriff Henry Mester on charges of embezzlement and conspiracy was spent at his desk. He conferred with attorneys and political allies until late in the day. Although he assailed his Sangamon county foes, declared that he had been falsely arrested and maintained his innocence, the governor announced no plans for continuing his fight, except to threaten his enemies with exposure.

THREE MEN DIE HOLDUP ATTEMPT IN SOUTHERN CITY

Posses Search for Bandits Who Killed
Patrolmen

(By The Associated Press)
MEMPHIS, Tenn., Aug. 10.—Police and sheriff's deputies of half a dozen Mississippi, Arkansas and Tennessee counties were searching tonight for members of a bandit gang whose unsuccessful attempt today to rob an employee of the Ford Motor company of payroll funds amounting to \$8,500, resulted in the death of three policemen and the wounding of five others.

Several men were brought to police headquarters tonight for questioning. The holdup occurred at the entrance to the assembling plant of the company in a busy industrial section shortly before noon. Those killed were Vincent Lucarini, a police lieutenant; Howard L. Gamble, an employee of the Ford company deputized as a special officer and Polk A. Carraway, a patrolman. Carraway and Gamble who were guarding Edward McHenry, the clerk in charge of the money, while returning in an automobile from a bank were shot to death when four masked men drove alongside, demanded the money and then opened fire with pistols and shotguns. McHenry leaped from the car and escaped the volley of shots, while Gamble and Carraway were struck by bullets and fatally wounded. Regaining his feet, McHenry darted into an entrance of the plant and reached the company's office in safety with the money intact. W. E. Harris, another policeman, was wounded but not seriously. As McHenry passed into the company's plant the men jumped into their automobile and escaped.

Fired On Police Car.
Lieutenant Lucarini was fatally wounded when a posse at a suburb, fired on a police car, mistaking it for the automobile in which the bandits were reported enroute to that town; Lucarini was brought to a hospital here where he died.

Joseph Robillo, Edward L. Hecklinger and C. L. Bonds, the latter a policeman, who were riding in the police car also were wounded. Hecklinger was struck in the head by a bullet and was reported in a critical condition. Robillo received the charge from a shot gun in his shoulders and forearm, as well as a scalp wound. None of the others is believed seriously hurt.

FAVORABLE TRADE BALANCE
Washington, Aug. 10.—Exports and imports continued their steady decline during July but the country's trade for the month resulted in a favorable trade balance of \$144,000,000 according to a statement issued tonight by the commerce department.

AMERICANS FROM RUSSIAN PRISON START FOR HOME

All Six Emaciated and
Show Signs of Bad
Treatment

(By The Associated Press)
REVAL, Aug. 10.—The six Americans released from Moscow prisons who arrived here this morning passed a happy day shopping and outfitting themselves after shedding their prison clothes and undergoing the cleansing necessary to comply with the health regulations. The men who have received their freedom are Captain Kilpatrick, of Union Town, Ala.; William Flick, H. J. Lemare and W. B. Estes of New York; X. B. Kalmatiano, of Racine, Wis., and Russell Pattinger of San Francisco. All decided to remain in Reval for several days before going to Riga and sent cablegrams to relatives in the United States asking for replies in care of the Red Cross. Relieved of their shaggy beards, fur caps and bedraggled Russian uniforms the Americans renewed their appearance.

Prisoners Emaciated.
They were all greatly reduced in flesh and ravenously hungry and were unable to pass a food shop without stopping in apparent amazement.

The Russian Bolsheviks sent the Americans by special car from Moscow to Narva, where the barbed wire gates dividing the soviet republic from Estonia swung open and permitted the car to be transferred to Estonian territory. When the disheveled and ragged Americans looked from the car windows and saw the half starved Bolsheviks guarding the east side of the line while well fed uniformed Estonians controlled the west side, they chafed the Bolsheviks, telling them that is what communism does for people. By courtesy of the Estonian government the Americans were not stopped at the border but were brought to Reval for cleansing by the American Red Cross who will care for them until they are ready to go home.

The Americans are unanimous in their belief that no group is developing strength likely to upset the Bolshevik government, but that famine may achieve its overthrow because the masses believe the government since it has abandoned the first principles of communism and failed to execute its decrees.

Famine Exaggerated.
In the opinion of the former prisoners famine conditions are exaggerated. They say it is impossible to differentiate between famine and the misery which is rampant thruout Russia. They were enthusiastic over American relief and advocate the sending of all foreigners possible into Russia to advertise to the world the actual conditions.

Mr. Kalmatiano, who was in prison for about three years, was the most composed and best dressed in the group, resembling the conventional American tourist. He showed little effects of imprisonment, altho under sentence of death for more than a year. Owing to his knowledge of the Russian language he was able to ingratiate himself with the prison officials and give great assistance to the other prisoners.

Captain Kilpatrick and Mr. Estes appeared to be the worst sufferers from their hardships and are in a highly nervous state. Kilpatrick said he had only two baths in a year.

SEEK FEDERAL AID IN PROSECUTIONS

CHICAGO, Aug. 10.—Because of an act passed by the state legislature in 1919 which exempts farmers' associations from state prosecution for conspiracy to fix prices, federal prosecution of the Milk Producers' association under the Sherman anti-trust act may be sought according to Ernest H. Hodges, acting first assistant state's attorney.

He has started an investigation of the alleged actions of the association in connection with the distribution and sale of milk in Illinois and neighboring states.

Mr. Hodges stated that persons injured through the alleged machinations of the milk trust may bring about the nullification of the statute thru an injunction in a civil proceeding which, he says, may be taken by the state.

RAILROAD EARNINGS SHOW BIG INCREASE FOR JUNE OVER MAY

Ten Fewer Railroads Showed
Deficits for the Same
Period

(By The Associated Press)
WASHINGTON, Aug. 10.—Railroads of the country earned \$1,778,000 net in June, which was a gain of \$14,697,346 over net earnings for May, according to reports filed with the interstate commerce commission by the carriers and made public today by the American Railway association.

The earnings for June the association said represented 3.1 per cent annual return on railroad investments as compared with a 2.4 per cent return for May based upon the tentative values of railroads fixed by the interstate commerce commission. Roads reporting deficits for the month numbered 72 against 82 in May. Of these 29 were in the western district.

SPRINGFIELD BANK EMPLOYEE ARRESTED

SPRINGFIELD, Ill., Aug. 10.—Otto L. Schriever, 38, former bookkeeper in the First National Bank of Springfield, was arrested by federal agents today and was being held in the Sangamon county jail tonight while bank officials were checking an alleged shortage of over \$4,000 in his accounts.

Schriever recently resigned. His alleged defalcations were not discovered until today. His method was said to be issue personal checks, charge them off on the accounts of large depositors when they were returned to the bank and then tear them up. In this manner he kept a balance unrecorded with the evidence uncovered by bank examiners. Schriever is said to have admitted his guilt.

"I just lived it up," he said, when asked what he did with the money.

RUSSIAN RELIEF PLAN PRESENTED ALLIED COUNCIL

Soviet Help Necessary
in Distribution of
Food Supplies

(By The Associated Press)
Paris, Aug. 10.—Matters connected with administration of food relief to starving millions in Russia occupied most of the time at today's sessions of the supreme council. All participants to the deliberations spoke on the subject and Premier Lloyd George declared he believed some arrangement should be made with the soviet government whereby its cooperation would be secured in distributing food supplies.

Ambassador Harvey took part twice, once in replying to Premier Lloyd George that he agreed that America's traditional policy gave traders the right to sell arms to either belligerent in the Near East, and in reply to inquiries of the premier regarding Herbert Hoover's relief plans.

French Premier's View
M. Briand, the French premier began the discussion of the Russian famine by saying that the Russian people who had fought with the allies in the beginning of the war might justly look to them for help.

"I propose that all the allies join with the United States and other nations interesting themselves in the administration of relief thru Red Cross Societies and other private sources," said M. Briand.

"I heartily agree," exclaimed Mr. Lloyd George. "But I wish to point out, that such efforts could not reach many of the sufferers. Relief must be organized immediately on a great scale, not only for the sake of Russia, but for the sake of the world, because typhus, cholera and other plagues incident to famine would cause more losses than the last war."

STRENGTH OF ARMY NOW 155,000 MEN

WASHINGTON, Aug. 10.—The strength of the army is now approximately 155,000 men. It was stated at the war department today, due to recent discharges. Applications for discharge already on record are sufficient to bring it down to 150,000 but action has been deferred. It is probable that men in units to be removed from camps ordered abandoned will be selected in further reductions.

EXTENSIVE CHANGES IN TAX LEVIES ARE EARLY PROBABILITY

Tentative Agreement Reached Between the
President and Republican Leaders Will
Mean Tax Cut of \$555,000,000—Suggests
Repeal of Many Taxes and Other Changes

(By The Associated Press)
WASHINGTON, Aug. 10.—Even more extensive changes in tax levies than were agreed upon at the white house conference between President Harding and Republican leaders of the house were voted tentatively today by the majority members of the ways and means committee.

As summarized in a statement the committee action included:

Repeal of the excess profits tax effective January, 1921.

An increase of the income tax on corporations from ten per cent to fifteen per cent, with the \$2,000 exemption retained, effective January 1, 1921.

Repeal of all taxes on the transportation of freight and passengers and on seats and berths, effective January 1, 1922.

An increase in the exemptions to heads of families on account of dependents to \$400 for each dependent instead of \$200 as at present effective Jan. 1, 1921.

Repeal of the so-called luxury tax clothing apparel effect Jan. 1, 1922. Exemption income taxes of the first \$500 of income from stock held in building and loan associations. Others included:

Repeal of the taxes on fountain drinks and ice cream and the substitution of a flat tax of ten cents a gallon on all fountain syrups to be paid direct by the manufacturer or maker.

Repeal of the stamp taxes on perfumes, extracts, tooth paste and other toilet preparations and proprietary medicines and the substitution of a manufacturers' tax of five per cent on the sale price.

Removal of 15 per cent manufacturers' tax on cereal beverages and the levying of a manufacturers' tax of 15c per gallon.

Substitution of a manufacturers' tax of 2 cents a gallon for the present ten per cent on the sale price of unfertilized juice beverages and carbonated waters of five per cent on the sale price.

The levying of a manufacturers' tax of three cents a gallon on certain classes of grape juice and two cents a gallon on other classes, in lieu of the present tax of 10 per cent on the sale price. It also was agreed to levy five cents a pound on carbonic gas sold to manufacturers of carbonated gases.

\$550,000,000 Reduction.
Members of the committee estimated roughly that these changes would result in a net reduction of \$550,000,000 in the total yearly tax bill. This is \$450,000,000 below the estimate reached at the White House conference but it was explained that the estimated reduction from corporations would be \$450,000,000 greater than heretofore reckoned by reason of the repeal of the excess profits exemption of 3,000 plus an amount equal to the eight per cent of the invested capital for the taxable year.

The tentative changes agreed upon constitute the great bulk of those proposed to be made and the committee is confident that the bill would be completed in time for presentation to a caucus of house Republicans Monday. Some other minor changes in levies are understood to be contemplated.

Several new proposals were put thru today and other changes made were quite different from those agreed upon at the White House conference particularly the repeal of all the transportation taxes.

The question of lightening the burden of men having small incomes was brought up by Representative Bucharach, of New Jersey who proposed that both single and married men whose net income was below \$4,000 be granted an additional exemption of \$500 a year or else the rate on their incomes be lowered from four to three per cent.

This proposal was voted down but the exemption for dependents was doubled.

Evidently facts in the government's monthly crop report are discounted on the markets before they are made public. At any rate big losses shown in the last report by comparison with the figures of a month before caused hardly a ripple in Wednesday's grain market.

Such drastic cuts have been made in the estimates for government expenditures that it has been possible to eliminate from one taxation bill certain provisions suggested by Secretary Mellon. This applies to the automobile and bank check taxes. The action gives color to the thought that Mr. Mellon in making some

especially irksome tax proposals brought about the desired result in impressing congress with the necessity for sharp economy.

It is said that the passage of the railroad funding bill would put a million men back at work. It is no wonder that President Harding is laying emphasis upon this bill, as one of the most important measures which is before congress. It is said that the only reason the president has consented to an early recess of congress for a month is that he has the assurance that during the recess a great deal of work will be done preparatory to the passage of this funding measure.

The fact that no primary election will be held in Morgan county this year because of the new law will not cause any grief among candidates. No very active campaign was in progress, but there is always a certain amount of work and expense that attaches to the campaign of any candidate.

The new order also means a saving for the county of several thousand dollars in election expenditures and the results will be just as satisfactory. The old primary law resulted in various alleged reforms and in many acknowledged inconveniences.

Perhaps State's Attorney Mortimer in his office to accord Gov. Small a change of venue without contest realizes the likelihood that a change could in all probability be secured. It would not be a difficult matter to prove that there is a great deal of prejudice and animosity toward the governor existing in Sangamon county. That county is almost as much a maelstrom of politics as is Cook county. They make a business of politics in those two counties.

Extensive hard road operations are in progress now in this state. However, it will be some time before the record of the state of Pennsylvania is equaled. There during one week in July 55 miles of durable highways were constructed. It is said that the materials used in this work if transported at one time would have required a train 23 miles in length. They evidently believe thoroughly in the hard road program in the eastern state.

ON FIRMER FOOTING. Assurances continue to come from every section of the country that business and industry are finding a firm footing. While a great many causes contribute to this improvement, all of which are entitled to generous credit, it is the consensus of opinion that the most potent factor is the restoration in business and industry of self-confidence and self-reliance. This is demonstrated by the fact that the independent-minded industries and concerns which early set about to solve their own problems are in a much more satisfactory condition today than those which were constantly taking their troubles to the government and asking for one form or another of assistance.

The first thing this Administration had to meet and overcome in its dealing with business and industrial affairs of the

country was the paternalistic idea of government that was implanted in the public mind and assiduously cultivated during the previous administration. It had become a national habit of every kind of business, both great and small, to take up with the President, either by petition or by a pilgrimage to Washington, all of their troubles, either real or imaginary.

All Ready for the Chautauqua

The tents have all been erected, the big top lighted and seated and everything is in readiness for the opening day. The tentage is of the best quality and has been carefully set up.

Mrs. Ruth Bryan Owen who makes the opening address comes from an Iowa engagement and will be the guest of friends while here. Mrs. Owen has had an eventful life and inherits the oratorical ability of her illustrious father. She is the most noted of Jacksonville's daughters and will be greeted by a host of friends.

Subscribers who have not secured their season tickets of the secretary should do so at once. Those who did not subscribe for season tickets last year may secure them of some of the business houses while their supply lasts.

The Parnells who supply the music for Friday render popular programs of novelty music, etc., characterized by and comedy.

Chas. A. Gage, platform manager and lecturer, will be here for the opening. Mr. Gage is a jolly, good fellow, of fine personal appearance, sings bass with the Preacher's Quartet which makes records for one of the great phonographs and knows thoroughly the chautauqua game.

Road conditions in Morgan county are unusually good. There are more oiled roads than ever before and that even with rains most of the roads will be passable.

Gay Zenola MacLaren, dramatic artist, who appears on Saturday evening, is widely known. Last winter she was on Broadway and attracted great audience and the highest commendation from the New York critics.

Dunbar's White Hussars band of eighteen men which gives two concerts daily on Saturday, Sunday and Monday is probably the most popular musical organization on the vaudeville and chautauqua platforms. It is an exceptionally fine band. The eighteen bandsmen are all singers as well as bandmen. Among them are several comedians, dancers and vaudeville artists.

Keep your eye on their snare drummer. They are all young men and all Americans. With spectacular uniforms and gold instruments, they are a showy bunch. Their programs are full of pep and action and diversified enough to please everyone.

The assembly this year is a week earlier than heretofore. The State fair moved into the week used in past years, hence the change.

Perhaps the weather man may deal more kindly with the assembly than he has for several years past. It was in 1915 when Mr. W. J. Bryan appeared on the opening day that he met an unprecedented August rain—and how it rained. The rest of the days that year were gloomy and threatening, but there were no more rains. The 1916 assembly had hot, clear weather, except the last two days which were threatening in 1917 weather and roads conditions were perfect, except for some showers about the middle of the season.

The 1918 assembly was held under unfavorable weather and road conditions. There was a heavy rain on the opening day with cloudy, threatening rainy weather and heavy rains later. The 1919 assembly opened with fair weather, but met continuous, cloudy threatening days with rain on the last Friday.

Last year there was rain in the morning and afternoon of the opening day and bad road conditions. The rest of the season was mostly cool and threatening with a shower or two on the grounds and rains in the county. Bad road conditions and threatening weather hurt the attendance materially as they keep autos from a distance from coming. A shower on the grounds is not harmful and really helps.

The roads leading into Nichols Park have all been oiled and the near approaches will be dustless. The tents for campers are all erected and ready for occupancy.

***** CHAUTAUQUA NOTES *****

A rumor has spread in some parts of the county that children under sixteen will not be permitted to enter the chautauqua grounds. There is no foundation for such statements. No one knows where or how it originated. Possibly it resulted from the infantile paralysis talk. The chautauqua management is advised that there are but three cases of this disease in Jacksonville—one a resident child and two children from out of town—that all are being cared for in hospitals, and that there are but 28 reported cases in the entire state of Illinois.

Some people do not understand that a season ticket admits the holder to the chautauqua and to a seat in the tent without any further charge at any time during the ten-day assembly. When one considers the price of subscribers' season tickets—twenty-two cents a day—it would seem impossible to furnish an extensive program at the price. It is done by reason of the large attendance and the fact that the men who manage the chautauqua give their time and energy as a community service. A season ticket admits the holder to everything at the chautauqua.

The Red Cross Pageant is going to surprise chautauqua fans. About two hundred people will appear in it. The costuming, music, etc., are all in competent hands. An immense amount of work on the part of the directors and others interested is going into the spectacle. Many visitors from Red Cross Chapters in this section of Illinois are expected.

THE TRIALS OF A HOUSEWIFE

How They Have Been Endured and How Overcome by Lydia E. Pinkham's Vegetable Compound

Experience of a Providence Woman

Providence, R. I.—“I took Lydia E. Pinkham's Vegetable Compound for a female trouble and backache. It began just after my baby was born, and I did the best I could about getting my work done, but I had awful bearing-down pains so I could not stand on my feet. I read in the papers about Lydia E. Pinkham's Vegetable Compound and the good it was doing other women, and I have got dandy results from it and will always recommend it. You can use these facts as a testimonial if you wish.”—Mrs. HERBERT L. CASSEN, 18 Meni Court, Providence, R. I.

Ohio woman for three years could hardly keep about and do her housework she was so ill. Made well by Lydia E. Pinkham's Vegetable Compound. Fayette, O.—“For about three years I was very nervous and had backache, sideache, dragging-down pains, could not sleep at night, and had no appetite. At times I could hardly do my housework. I got medicine from the doctor but it did not help me. I saw Lydia E. Pinkham's Vegetable Compound advertised in a newspaper and took it with good results, and am now able to do my housework. I recommend your medicine to my friends and you may wish my testimonial.”—Mrs. CHESTER A. BALL, R. 15, Fayette, Ohio.

An Illinois woman relates her experience: Bloomington, Ill.—“I was never very strong and female trouble kept me weak. I had no interest in my housework. I had such a backache I could not cook a meal or sweep a room without raging with pain. Rubbing my back with alcohol sometimes eased the pain for a few hours, but did not stop it. I heard of Lydia E. Pinkham's Vegetable Compound, and six bottles of it made me as strong and healthy as any woman; and I give my thanks to her for my health.”—Mrs. J. A. McQuerry, 610 W. Walnut St., Bloomington, Ill.

He conditions described by Mrs. Cassen, Mrs. Ball, and Mrs. McQuerry will tell many women who struggle on with their daily tasks in just such conditions—in fact, it is said that the tragedy in the lives of some women is almost of belief. Day in and day out they slave in their homes for their families and beside the daily routine of housework, often make clothes for themselves and for their children, or work in their gardens, all the while suffering from those awful bearing-down pains, backache, headaches, nervousness, the seas, and troubles which sap the very foundation of life until there comes a time when nature gives out and an operation seems inevitable. If such women would only profit by the experience of these three women, and remember that Lydia E. Pinkham's Vegetable Compound is the natural restorative such conditions it may save them years of suffering and unhappiness.

here is hardly a neighborhood in any town or hamlet in the United States where some woman does not reside who has been restored to health by this medicine. Therefore ask your neighbor, and you will find in a great many cases that at some time or other she, too, has been benefited by taking it. I will recommend it to you. For more than forty years this old-fashioned root herb medicine has been restoring suffering women to health and strength. Lydia E. Pinkham's Private Text-Book upon “Ailments Peculiar to Women” will be sent to you free upon request. Write The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. Its book contains valuable information.

GRAND JURY TO SIFT THE KENNEDY MURDER CASE
State Will Ask That Burch and Mrs. Obenchain Be Held

LOS ANGELES, Aug. 10.—The mills of justice ground slowly today in separating the wheat of truth from the chaff of rumor in the investigation of the shooting of J. Belton Kennedy last Friday night.

Neither Arthur C. Burch, held on “suspicion of murder” nor Madeline Obenchain, held as a material witness, was subjected to any extended questioning.

Mrs. Obenchain, young divorcee who was with Kennedy outside his summer home in Beverly Glen when he was shot was not taken to the district attorney's office, but Burch, her college class mate, was taken there for a brief conference with that official and two deputies.

Jury to Have Evidence
It was announced that evidence would be presented to the Los Angeles county grand jury tomorrow and that indictments would be requested. It was anticipated that they could not be returned before some time Friday as 15 witnesses were summoned to appear.

The funeral of Kennedy held today from the chapel of an undertaking firm, was attended by a large number of persons.

Deep sea divers began a search of the ocean floor just off the shore that flanks the base of Santa Monica canyon, looking for a twelve gauge shotgun in the belief that the men who shot Kennedy had thrown the weapon into the ocean.

That theory was based on the mileage shown by the trip speedometer on a car believed to have been driven from Los Angeles to Beverly Glen, concealed there while the shooting was accomplished then returned to the automobile livery from which it had been rented.

The mileage was just sufficient to have made the trip in an automobile from the Glen and the additional run from the Glen to the spot below Santa Monica where the search started.

Friends and Suspects.
It was said at the district attorney's office that the evidence to be presented the grand jury would include a portion of that at hand, just enough to make a preliminary case against those implicated.

It was stated that neither Burch nor Mrs. Obenchain would be called, under present plans.

Friends and relatives of both prisoners have rallied to their support. Burch's parents have telegraphed assurance of support and also have arranged for counsel.

TWO MORE ARRESTED ON FRAUD CHARGE
New York, Aug. 10.—Postoffice inspectors, who yesterday arrested four men in connection with alleged mail frauds involving \$500,000 today pressed their campaign by arresting two more, William J. Zuckerman and Jacob Levinstein.

Frederick Steffe, manager of the prosecution bureau of the New York Credit Men's Association charged that Zuckerman operated in St. Louis and Chicago. Zuckerman was held in \$25,000 bail and Levinstein released on his own recognizance.

PAID HIS LAST BILL
Chicago, Aug. 10.—William Larson had gone thru his 55 years of life owing no man. So today before ending his life in his bath room he wrote a note telling of his act and deposited 45 cents beside it to pay for the gas he used in committing suicide. The note read: “I always liked to pay my debts. This is to pay for the gas I used going to pay the last big debt of all.”

MEREDOSIA PLANS ANNUAL HOMECOMING

Arrangements Being Made to Entertain Great Crowds on September 1-3.

Meredosia, Aug. 10.—Meredosia's sixth annual homecoming as been announced for the first three days of September. The "erry Military band has been engaged for a series of concerts, and several prominent speakers are to appear on the program. A horse show will be held on Friday, September 2. Farm

products of all kinds will be exhibited on all three days. Races and other sports will help entertain the large crowds which are expected.

Burgoo soup and fried fish are listed on the menu for each day. The Meredosia homecoming is one of the most popular summer social events of the county, and always draws visitors from a wide area.

Miss Eleanor Ryan of St. Louis who has been visiting Miss Grace Tilton for two weeks left for her home yesterday.

CHAUTAUQUA OPENS AT WHITE HALL SUNDAY

Big Tent Being Set Up in Gregory Park—Shower Given in Honor of Bride-to-Be—Other White Hall News Notes.

White Hall, Aug. 10.—The big top for the sessions of the White Hall Chautauqua arrived today, and is being set up on Gregory Park for the annual assembly which begins next Sunday. Numerous camping tents are also going, there being an unusual demand for camping tents this season. The big tent is being put in readiness for the Farm Bureau picnic next Saturday, really the opening day of the chautauqua, as the farm picnic has come to be set every year in connection with the chautauqua. Miss Nettie Scheerer has been here from Cincinnati for several days, directing the talent for the presentation of the pageant "America Yesterday and Today," which is to be presented next Sunday night with a cast of two hundred characters. The talent was organized by Miss Edith Hyatt, and the two ladies have matters well in hand. The pageant will depict three episodes of American history—the Indian period, pioneer days and the patriotic section. The White Hall band will play each day of the chautauqua except next Saturday when the musical feature of the farm gathering will be Wyatt's Ladies' Orchestra. It is not fully decided as to when Hon. H. T. Rainey will lecture on "Miracles of Finance." It was thought he would be slated for next Monday evening, but the management desires to get his engagement in closer proximity to the coming of William J. Bryan next Thursday night. Mr. Rainey will probably preside at the Bryan lecture and introduce the great commoner, rather reintroduce him, as this will be Bryan's fifth visit to White Hall since putting a crown of thorns on a cross of gold.

A shower in honor of Miss Helen Griswold was given by Miss Georgine Piper this afternoon at the latter's home on West Bank street. It was a notable function. The bride-to-be is the daughter of Mr. and Mrs. G. C. Griswold. Her marriage to Mr. Frank Boggess will take place soon.

H. T. Johnston will depart on the 21st inst. for a tour of the east, and will visit his son, Pierce Worrall Johnston, at Wilmington, Delaware.

The illness of Francis Fowler is discomfiting to his friends. Mr. Fowler is 78 years of age, and is one of the leading citizens, one of the old-time business men, well known as a public speaker and pulpiteer. One whose life has been so valuable gives grave concern all over the community when he has rarely if ever known to have had a sick spell before that confined him to his bed.

Mrs. Jessie Bandy, of Chicago, is the guest of Mrs. A. M. Bandy.

CARTRIDGES AND SHELLS

What poor priming does to your rifle barrel

It eats away the smooth surface, digs little "pits," and ruins the accuracy of the barrel.

Through fifty years of effort the U. S. Cartridge Company has developed a priming that minimizes the effect on the rifle barrel. The famous N. R. A. .22 and all U S Rim-Fires are made with this priming.

It means a longer, a much longer, life for your rifle. With most ammunition, rifle barrels become inaccurate very quickly. The U. S. Cartridge Company has a rifle which has fired 250,000 U S Cartridges and is still fairly accurate.

Be good to your rifle. Keep it clean—which is easy if you use only U S Cartridges. We sell all popular styles and sizes. Money back if not satisfied.

Daily Market Report

PRICE OF WHEAT

CLOSED LOWER

By Associated Press.
CHICAGO, Aug. 10.—Heavy
profit-taking sales more than
wiped out in the wheat market
today advanced due to the gov-
ernment crop report. Prices
closed weak 1 1/2 to 1 3/4 net lower
with Sept. 1, 2 1/2 to 3 1/2 and
Dec. 1, 2 1/2 to 3 1/2. Corn, 1-4
1 1/2 to 2, oats 1 1/2 to 2 1/2, and
provisions 5 to 5 1/2.

Also the wheat market opened
with a material upturn in price,
the fact soon became evident that
speculation had fully discounted
whatever was bullish in the official
crop estimates from Wash-
ington. Much selling on the ad-
vance came from a big elevator
concern. The volume of offer-
ings from this source and from
other houses that cooperated
proved far too great for the buy-
ing power in the market and
caused values to move down-
ward during almost the whole
session despite export purchasing
here of about 500,000 bushels
and notwithstanding that 20,000
barrels of flour had been taken at
the seaboard, partly for Russian
relief. Some interest was shown
in a British estimate putting the
world's probable import needs at
632,000,000 bushels against an
estimated exportable surplus of
644,000 bushels.

Enlarged country offerings
weakened corn. Oats fell in
sympathy.

Sharp breaks in the price of
hogs pulled down provisions.

HOWARD ZAHN BUYS MAIN STREET PROPERTY

Will Erect Gasoline Filling Station at Corner of Main and College Streets.

The real estate records yesterday showed the transfer by Mrs. Sabilla Tendick to Howard Zahn of part of lot 12 in Wilkinson & Brown's addition to Jacksonville. This property is the old Tendick homestead at the northeast corner of College street and South Main. Mr. Zahn is acquiring the property as the site for a gasoline filling station. The residence will be moved away and a station erected. It is the expectation, Mr. Zahn said last night, to have the work begin at an early date.

What Is Every Mother's Hope For Her Children?

Sturdy, energetic children radiating health, are a source of pride and joy to their parents. And their development depends largely on their food.

Children, undernourished and unwisely fed are weak and unhealthy, and many times anemic. Disease easily grasps them, for their undeveloped constitutions are unable to resist the disease germs.

No food will have greater influence in making your children vigorous and healthy than Grape-Nuts. Served with milk or cream, Grape-Nuts is an ideal body, brain and nerve food. It is made from wheat and barley. Grape-Nuts offers a high food value, and it is as delicious as it is healthful.

Children find delight in the crisp, sweet richness of Grape-Nuts.

A dish at breakfast or lunch for a few days and you'll agree "There's a Reason" for Grape-Nuts. Nutrition and economy combined.
